

Permission for Dual Participation During the Same Sport Season

The Administration of Marian High School discourages the practice of participating in two sports during the same sport season due to the excessive time commitment necessary, team chemistry, increased potential for physical injury and possible detriment to academic progress. However, Marian recognizes that this is a choice which some students may be able to handle. A student may, by filling out this permission form and returning it to the Athletic Director with the appropriate signatures, participate in two sports in the same sport season. The student will select a primary sport and a secondary sport. The primary sport will be the one that will be chosen when contest conflict arises between the two sports and the sport where all practices must be attended except when conflicting with a secondary sport contest. The student must attend at least one practice per week of the secondary sport.

I, _____ (student name), wish to participate in two sports in the same sport season. I, along with my parents, understand that by making this choice, we accept responsibility for any and all consequences, including but not limited to, increased risk of injury, loss of playing time if I miss practice of one sport to play in the other, and difficulty in keeping up with academic assignments.

I also select _____ as my primary sport and
_____ as my secondary sport in case there is any conflict.
